

The Bellwethers of Buffalo Creek

All programs will be held from 7 pm - 8 pm at the Buffalo Creek Nature Park (154 Monroe Road, Sarver, PA 16055).

October 20: North America's Giant Salamander- The Eastern Hellbender
November 18: Freshwater Fish as Water Quality Indicators
December 16: The Importance of Freshwater Mussels
January 20: Louisiana Waterthrush: Life History and Ecology

The Buffalo Creek region contains some of the highest quality habitat in western Pennsylvania. It is home to many species that are not commonly found. Come learn about some of these amazing species, their importance, and how they help us to understand the state of the watershed.

Series is open to everyone. Come to 1 or all 4.
Register at www.aswp.org or (412) 963-6100.

BUFFALO CREEK
WATERSHED COALITION

All programs are **free**, thanks to funding from the Pennsylvania Department of Environmental Protection's Growing Greener Fund.
